

## Congress center „Danubia“

**Silver Lake** is one of the most famous excursion areas in Serbia. The lake is actually a branch of the Danube River, which was in 1971st converted with embankment in the upper stream, so the coastal Rama rit was protected from the groundwater. The lake is located in the municipality of Veliko Gradiste (2.5 km away from the town) and has a very good tourist location because it is on the intersection of important roads and close to the economically developed cities (120km distance from Belgrade, 34km from Pozarevac and 60km from Smederevo).

The ship **Silver Star** is designed for sightseeing tours along the Danube and in Silver Lake surrounding. Cruise ship Silver Star will give you an unforgettable experience and an amazing view on the Danube coast. During the four-hour cruise you will be able to see Veliko Gradiste, the firth of the river Pek, settlements Usinje and Vinci which are surrounded by thick pine forest. Danube bank here is the most beautiful and it is a popular place for vacationers throughout the summer. On the left bank of the Danube is a settlement Moldova Veke, which was a military fortress. Downstream is spreading great river island Moldava (which belongs to Romania). This is protected area rich of flora, on which have been also identified 72 species of birds. Certainly the biggest attraction of this cruise is Golubac fortress at the entrance to the Djerdap Gorge.
