

Congress center „Danubia“

Silver Lake is one of the most famous excursion areas in Serbia. The lake is actually a branch of the Danube River, which was in 1971st converted with embankment in the upper stream, so the coastal Rama rit was protected from the groundwater. The lake is located in the municipality of Veliko Gradište (2.5 km away from the town) and has a very good tourist location because it is on the intersection of important roads and close to the economically developed cities (120km distance from Belgrade, 34km from Požarevac and 60km from Smederevo).

"**Silver Star**" is ship designed for tourist boat cruise along the Danube. Boat capacity is up to 300 people (indoor and outdoor area). Cruise ship „Silver Star“ will give you an unforgettable experience and a stunning view of the Danube coast. „Silver Star“ usually sails on two regular lines: to the mouth of the river Pek and back (1,5 hours of sailing); to the Golubac Fortress and back (3,5 hours of sailing). Further information at the reception of hotel „Danubia“.

The Golubac Fortress

The Golubac Fortress was a medieval fortified town on the south side of the Danube River, 4 km downstream from the modern-day town of Golubac, Serbia. The fortress, which was most likely built during the 14th century, is split into three compounds which were built in stages. It has ten towers, most of which started square, and several of which received many-sided reinforcements with the advent of firearms.

Golubac Fortress has had a tumultuous history. Prior to its construction it was the site of a Roman settlement. During the Middle Ages, it became the object of many battles, especially between the Ottoman Empire and the Kingdom of Hungary. It changed hands repeatedly, passing between Turks, Bulgarians, Hungarians, Serbs, and Austrians, until 1867, when it was turned over to the Serbian Knez, Mihailo Obrenović III. Now, it is a popular tourist attraction in the region and a sightseeing point on Danube boat tours.
